Software major Tata Consultancy Services has created more wealth than any other stock in the domestic market since 2010, according to Motilal Oswal's annual wealth creation study. The Tata group company added ₹3.5 lakh crore to its market value between 2010 and 2015, said the brokerage. The study named consumer goods major ITC as the second largest wealth creator that added ₹1.56 lakh crore, followed by HDFC Bank with a ₹1.54 lakh crore growth in market value.

The theme for the wealth creation study was 'mid-to-mega', where the brokerage identified companies that were mid-caps five years ago but have grown to become mega caps.

In terms of pace of growth, mid-cap names such as Ajanta Pharma, Symphony and Eicher Motors have managed to see exponential growth in their stock prices since 2010. The three stocks have posted compounded annual growth of 90 per cent each.
