Sub.: New Product Range

Dear Sir,

Symphony Limited has come up with a distinguished range of air coolers setting a new benchmark in the air cooler industry. The company has launched 'Sense' and 'Diamond' range of air coolers. With this launch, the company has added 7 models to its existing portfolio totalling to 48 matchless models.

'Sense' range consists of three models where the controls can be activated by the air-cooler Sensing' gestures. This is a path-breaking innovation in the world of air-coolers.

The 'Diamond' range consisting of four models, is synonymous with a stylish and trendy look drawing inspiration from the cuts or facets of a Diamond. Two of the four models have powerful blower for enhanced air-throw in a desert cooler format, which is the first in the industry. The models come in varying capacities and features at varying price points.

Kindly take note of the same and oblige.

Thanking you,

Yours Sincerely,
For, Symphony Limited

Mayur Barvadiya
Company Secretary
