**Sub.: Grant of Product Patent**

Dear Sir,

Symphony's model 'Cloud', which is the world's first wall mounted air cooler, has been granted 'Patent' rights by South Africa for its innovation. Being wall mounted like a split air-conditioner, 'Cloud' does not occupy any floor space but unlike a split air-conditioner, does not have any outdoor unit. It therefore combines the best attributes of air-coolers with that of air-conditioners.

A world leader in evaporative air coolers, Symphony focuses on innovative design to create better and eco-friendly products for domestic and industrial customers in various countries across the globe. At Symphony, design-driven innovation and green engineering is a sustainable competitive advantage. Company delivers market-leading products with engineering and design innovation, improved energy conservation, distinctive styling and customer-centric design.

Kindly take note of the same and oblige.

Thanking you,

Yours Sincerely,  
For, Symphony Limited

Mayur Barvadiya  
Company Secretary
